RE: Scope determination on countervailing duty order on aluminum extrusions from the People's Republic of China (C-570-968).

1. On 11/21/2013, in response to a request by Kam Kiu Aluminium Products Sdn. Bhd. and Taishan City Kam Kiu Aluminium Extrusion Co. Ltd. (collectively, "Kam Kiu"), Commerce issued a final scope determination that Kam Kiu's subparts for elastomeric metal bushings for automotive vehicles ("subparts" or "subparts for metal bushings"), components used in automotive suspension systems, which Kam Kiu exports, are within the scope of the countervailing duty order on aluminum extrusions from the People's Republic of China (C-570-968).
2. Because the imported product meets the physical description of the scope language and does not fall under the finished goods kit exclusion in the scope, Commerce found this product to be within the scope of the order. The merchandise consists of subject extrusions that do not meet the exclusion for finished goods kits because they require additional finishing before being installed, and consist solely of aluminum extruded components.
3. Continue to suspend liquidation of entries of aluminum extrusions from the People's Republic of China, including subparts for metal bushings exported by Kam Kiu described above, subject to the countervailing duty order on aluminum extrusions from the People's Republic of China.
4. If there are any questions by the importing public regarding this message, please contact the Call Center for the Office of AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce at (202) 482-0984. CBP ports should submit their inquiries through authorized CBP channels only. (This message was generated by OIII:YC.)
5. There are no restrictions on the release of this information.

Michael B. Walsh
